

IMPORTANT STUFF

PRIVACY POLICY

Order Information

We gather only that information that visitors are willing to give. Some of it is required to fill orders (like names, shipping addresses, and phone numbers), or to maintain accounts (like customer accounts), and some is requested so that we can be of better service (contact information like email addresses and phone numbers, for example).

Email

We send email to customers only if it regards a particular order or inquiry, or if the customer has opted to receive promotional emails. We do not share or sell any email addresses.

Information from Other Sources

We receive information such as updated delivery information from other sources such as our carrier services or other third parties, which we use to correct our records and deliver your next purchase or communication.

Privacy

Old Red Jalopy maintains a strict privacy protocol for all customer information. We don't share, trade or sell other people's personal information under any circumstances. We only occasionally use the information in order to update our customers on new products, services, special offers, promotions, and anything else we think might be of interest (unless you don't want us to, in which case just let us know and we won't).

Security

All the information you provide is transmitted encrypted. Nobody but us has access to the information once it has been received — all collected data is protected by firewalls and other means.

Non-identifying Information

We collect statistics about visits to our site — where the visitors came from, what they did and viewed during their visit, what kinds of browsers they use, and where they went when they left. However, we do not (and cannot) collect any personally identifying information (names, email addresses and such) in this way.

Cookies

We use cookies to make our shopping cart work. Without cookies, there is no way to order from us online. This policy is subject to change.

Please address any questions or comments to info@oldredjalopy.com.
